Declaration

Since 2014, the volunteer organization "Bevar Ukraine" (Denmark) has been providing significant humanitarian support to Ukraine. In total, 723 medical and social institutions received assistance in the amount of €4,300,000 (1,400,000 kg of medical and humanitarian goods were sent to different parts of Ukraine).

The Christian Charitable Foundation "Tymosha's Smile" project on the construction of the first Christian hospital for children with leukemia in Ukraine was presented to us in 2021. Our team actively supported this initiative. It was decided to provide this medical facility with an ambulance (or several); medical equipment and walkers, furniture for furnishing wards (beds, mattresses, cabinets). And also, everything that we can do for "Tymosha's Smile" Project, as the request is received.

When a full-scale war broke out in Ukraine, "Bevar Ukraine" handed over an ambulance to "Tymosha's Smile" to evacuate seriously ill children to Italy.

We are satisfied that as a result of our cooperation with "Tymosha's Smile" and Yulia Sanko there are hundreds of Ukrainians evacuated abroad, who have been given the chance to receive free treatment in the best clinics in Europe. We are sure that further cooperation will bring even more fruits because a European-level hospital will be built on the territory of Ukraine!

Thank you to everyone who, together with us, will help Charitable Foundation "Tymosha's Smile" to build a much-needed medical institution in Ukraine!

Chairman of the volunteer organization "Bevar Ukraine"

With best regards

Andrii Kuzmyn
Bevar Ukraine
