About partnership and cooperation

Sanko family, whom I know personally, created Christian Charitable Foundation "Timosha's Smile" and intends to build a center for medical care, research and treatment of leukemia in children on the territory of Goshcha community.

There is no clinic of this level in Ukraine, and the number of children diagnosed with oncology is increasing. According to official statistics, every year about 5,500 children are diagnosed with various types of cancer, including leukemia.

Together with my team, I decided to support this project. We are doing everything possible to help implement the plan as soon as possible.

We are asking everyone who cares to join the project - "Construction of a Christian center for medical care, research and treatment of leukemia in children" and to help Ukrainian children have the opportunity to be treated in an oncology clinic with European standards.

Mayor

Oleksandr Tretyak
